LAWN TENNIS FIGHT ON

Campaign Launched Against the Courts at Newport.

DEMAND CHANGE OF SCENE

Behr and Mahan Head Crusade for Better Handling of National Tourney.

Concerted action toward the playing of the national lawn tennis championship tournament at some other place than the Casino courts at Newport, R. I., has at last taken form. Karl H. Behr, the international player, and Lyle E. Mahan, former intercollegiate champion and Columbia University captain, are the leaders of the movement, which unquestionably will embroil the United States National Lawn Tennis Association in the most heated controversy of its existence. From the plans revealed yesterday by those who are to have charge of the campaign against Newport, all chances of holding the meeting there this year are doomed.

Karl Behr and Lyle Mahan favor the Germantown Cricket Club, at Manheim, near Philadelphia, as the best place to decide the important meeting. In the estimation of both, the bad management of the tournament at Newport has done more to injure the sport than anything else, and, according to Mr. Mahan, it is time that the national championship took on the dignity of a sporting competition such as it deserves and left off being a whimsical society function.

Coupled with the movement to take the tournament away from Newport, where it has been held for thirty years, it also is the plan to hold the tournament about the middle of September, in place of August, as at the present time, and also to do away with what many consider an unfair challenge match for the title.

In this connection it was pointed out that Behr and Mahan are both members of the West Side Tennis Club, which several years ago changed the method of deciding the metropolitan championship, and placed it upon the playing through system.

In outlining the plans by which it is hoped to work the desired change Mr. Mahan stated that the campaign would be a vigorous one. "The game has outgrown the dwindling methods pursued at Newport," he declared. "With all of the dig and harsh criticism that have been doing at the handling of the tournament on the Casino courts there has been little or no improvement. Besides, Newport is most inaccessible to the country in general, with the exception of Boston, it is impossible to represent the sport nationally in its truest sense."

"Philadelphia, on the other hand, is within eighteen hours of Chicago, and that means nearer the West, from which our most interesting players are coming at the present time. It is easily accessible from Cleveland, Pittsburgh, Cincinnati, Baltimore and Washington and the South, where lawn tennis is showing such an amazing growth. It is just as central and directly reached as this city."

"The Casino at Newport has not the space necessary for holding the tournament, as it is increasing at present. Twelve courts, which is approximately the number available there, is not sufficient when the entry mounts to 181 players, as it did last August. Sleeping and eating accommodations are more easily had in Philadelphia at any price the competitor wishes to pay. It is not so at Newport."

"The difficulty of obtaining officials which has been the joke of the championship at Newport also can be overcome at Philadelphia. The Germantown Cricket Club has over six hundred playing members, in addition to several times that number who do not. The Casino Club has about fifty, and that select few rarely exert themselves to officiate over a match."

"At this time I am not at liberty to name all of those who have joined in the insurgency, but the list is a big one and includes others who have played on international teams for the Davis cup, leading champions and workers for the game. We expect to receive support from some of the Western players, among whom Dr. P. K. Hawk is a leader. We believe that it is time that the lawn tennis map be changed. If we can secure proxies enough before Friday, February 3, we propose to change it."

"A careful canvass of several hundred players certainly shows that the sentiment is against Newport by a big majority. It has often been asked in the last season or two: If the championship is taken away from Newport, where can it be played with as good a field of turf? We have answered that question. The answer is found in the perfect courts at Manheim, where the international match against the British Isles team of two years ago was decided. There are more courts and every detail is far superior to Newport."

"If the lawn tennis players have the courage of their convictions the championship of the coming season will be held there. The passing of Newport is at hand, and the nationalization of the sport is about to be ushered in, for it has been too long delayed."

Those familiar with the situation said last night that it needed only concerted action on the part of prominent players to toll the knell of Newport as the place for holding the national tournament. The feeling against the social capital of the country has been gaining because of the fact that competitors from distant cities visiting the tournament for the first time found, to their surprise, that the less important meetings in their own districts were conducted with better observance of rule. There is no doubt that the outcome will be watched with interest throughout this country and in England.

TRUCK STILL ON THE JUMP

Three-Ton Alco Runs Continuously for 78 Hours.

When the three-ton Alco truck which is making a "non-stop" run came into the garage last night at 6 o'clock it had completed seventy-eight hours of continuous running.

In that time the motor had not been once stopped, and it left at 6:30 o'clock from the garage on its seventy-ninth hour of continuous running. This gives the truck the world's record for a "non-stop" performance for vehicles of this type.

As the run continues the interest among the exhibitors at the truck show in Madison Square Garden increases. They are watching this performance very carefully, and engineers from many companies, as well as inquiring merchants, are keeping careful track of its performance, consumption of gasoline and mileage per gallon.

The truck's performance in this "non-stop" run is the more remarkable because it was not in any way prepared for the test. "Non-stop" runs for automobiles have usually been made on a day or two, and the motor has been in weeks in advance, and put into perfect condition for the test. It was not decided to start this truck on the long "non-stop" run until last Friday. The truck is several months old, and has been in more or less constant use. There was no opportunity to go over the engine or in any way prepare it for the test. It was taken out of the garage with very little overhauling and started on Monday noon.

CORNELL TO PLAY COLUMBIA

Promise of Keen Basketball Struggle Here To-night.

Cornell's basketball team will play its second league game with the fast Columbia five in the Morningside gymnasium to-night. Although the Blue and White vanquished their Ithaca opponents on January 5, the score was only 20 to 18. It was the only game Cornell has lost this season.

Columbia has won every game so far, decisively defeating Princeton twice, as well as beating Georgetown, Pennsylvania State, Wesleyan and several of the smaller colleges. From appearances there is every reason to believe that a fast game will result.

N. Salisbury, 12, and G. W. Dunn, 13, were the winners in the two contests for the Trubench medals, which were decided yesterday by the Columbia swimmers. Salisbury's victory was in the fifty-yard swim, and Dunn was first in the fancy dive. There was a large field in both fixtures, and in the swim several heats were necessary. Salisbury won the final heat, swimming the two lengths of the tank in the good time of 21.5 seconds.

WEIRD BASEBALL RULING

National Commission Appears to Reverse Itself.

Cincinnati, Jan. 19.—The application of Fred Jacklitsch, former catcher of the Philadelphia club of the National League, to be declared a free agent was denied today by the National Baseball Commission in a decision that upset baseball precedents. Jacklitsch had an agreement with the Philadelphia club to the effect that when the club decided to dispense of his services and failed to place him with either a National or American league team, he was to get his unconditional release, but recently he was disposed of to the Rochester club, of the Eastern League.

The commission recognized the agreement with Philadelphia, but said that it only held good during the life of his contract of 1910. As this contract has expired, the agreement also expired, according to the commission, and he was awarded to Rochester.

Hitherto the commission has held that because of the reserve clause baseball contracts never expire.

YANKEE HORSE WINS ABROAD.

Nice, France, Jan. 19.—American owned horses captured first and second honors in the Prix de Cannes, a steeplechase of 800, or two miles and one furlong, which was run here today. Frank J. Gould's Aramon won and Mr. Pizer's Perlefinore finished second.

MILLIONS FOR GRIFFITH

Manager of Reds Not Enthusiastic Over Dim Prospects.

Cincinnati, Jan. 19.—Clark Griffith, manager of the Cincinnati club of the National League, received a letter today from New York which he said was the contents of which made him gasp, as the subject was millions.

According to the letter Mr. Griffith is one of the heirs of Daniel Griffith, who died in New York in 1888, leaving property which is now valued at several million dollars.

The attorneys in their letter seek the cooperation of Clark Griffith with other heirs, who, it is stated, will institute legal proceedings to gain possession of the property.

Mr. Griffith refused to-night to become enthusiastic over the report that he is to become suddenly wealthy.

LAMY MAY FACE CHARGES

Champion Speed Skater in Danger of Losing His Standing.

Edmund Lamy, the amateur champion speed skater of this country, is treading on thin ice, and may be forced to answer charges at the next meeting of the governing body.

Demands for what some consider excessive expense money are jeopardizing the amateur standing of the Saranac Lake skier.

The skating races at the St. Nicholas rink, including the three-quarter-mile international championship, have been postponed until after the big meeting at Montreal the latter part of this month.

RACING AT JACKSONVILLE

Console Makes New Track Record in Beating Guy Fisher.

Jacksonville, Fla., Jan. 19.—Console won the General Lee Birthday Handicap, of \$1,500, in impressive style, at Monier Park today, and in so doing established a new track record of 1:33 for the mile and a furlong. Guy Fisher, the favorite, and Milton B. the second choice, could never get to Console, which led the entire distance. Fain, Hufnagel and Troler, the jockeys, were each set down for six days for disobedience at the barrier.

The summaries follow:
